LIBANO REPORT LAND PURCHASE FOR BARRIO SANTA ROSA PROJECT

Great News from Libano!!! We have finished purchasing the land in which we will be able to build the 32 homes for the invasion Barrio of Santa Rosa. Sometimes patience pays off. Twice times we have been thwarted in our efforts to purchase a usable piece of property. The first time, the land was unstable and not suitable for building. The second time an unscrupable character came in and upped the bid to a point where we could do nothing. (The final price he paid was \$15,500). Finally, the third time paid off for us as we purchased two side by side lots with room to build 32 homes and we paid an excellent price of only \$8700. If the government subsidy works out as usual, the cost is around \$500 per home. If this is the case then we have already saved enough funds in order to build 14 homes with this deal. It certainly has worked out to the benefit of this project.

We will begin to formulate the plans that we need to submit to the government for the housing subsidy and then to await their response. We may be only 18 homes (\$9000) away from making this dream a reality. Many thanks to all of you for helping to make this happen.
